SECTION 02 (40 marks)

Create a Form as shown below in Figure 1 using JavaScript.

Figure 1 - Form

1. Create the form as shown above in Figure 1. A user must enter a value for all the input fields.   (20 marks)

2. When the user submitted the form, it should display the error message "You should be above 12 years old" if the user enters an age lesser than 12 years or left blank.

                                                                                              (10 marks)

3. When the user submitted the form, it should display a thank you message with the user's name on the top of the web page.

   e.g. Thank you Radha Silva!   (10 marks)
