Assignment 01

"ABC Bookstore" is a renowned bookstore located in Kandy city. They want to expand their business online and have hired Sarah, a Freelance Web Developer, to create their website. Sarah plans to use an incremental approach for website development.

The first phase of the website development involves implementing the basic structure of the website using HTML.

The guidelines for designing the web pages are as follows:

The website should have the following pages:

- **Home:** books, promotions, and any special offers, etc.

  The home page should contain links to the following pages at the top.

- **About us:** Provide information about the history, vision, and mission of ABC Bookstore. (Can add videos as required.)

- **Books:** Display various categories of books available at the bookstore.

- **Events:** Highlight upcoming book signings, author talks, and other literary events organized by ABC Bookstore.

- **Register**: Displays a form to login.

- **Contact us:** Shows the contact details of the book shop including the address, phone number and email.

Additional Information

- Details of the books must be given as images with price, discount percentages, etc. (There should be at least 5 books.)

- Use appropriate HTML elements according to the format and purpose of the content to be displayed on the web page.

Guidelines for submitting the assignment.

1) Create a folder with all the HTML files and zip it.
2) Rename your zipped folder as <index_no.zip> and upload it to the LMS.
