SECTION 01 (60 marks)

You are responsible to design a webpage for an educational institute. It is used to display the modules (or subjects) offered by them. Write the XHTML and CSS code necessary to recreate the following that appeared on the screen (Figure 1).

Section A (30%)	Section B	Section C (20%)
• Home • Modules • About us • Contact us		
Section D		

Figure 1: Web page template

Include the following:

1. Create the page structure as shown in Figure 1.   (10 marks)

2. The background color of Sections A and C of the page is #F9F2DF. The remaining area has a white background.   (5 marks)

3. A sans-serif font style is used for the text on the page.   (5 marks)

4. Section A:

   a. Include the navigational links as shown in Figure 1.   (10 marks)

   b. Links should be given in bullet points.   (5 marks)

5. Section B:

   a. Insert a suitable image of an institute.   (5 marks)

   b. Include a 1em solid red border around the image.   (5 marks)

6. Insert a heading below the image. The heading can be any preferred name as the institute name.   (5 marks)

7. Section C has contact details (email, telephone number) of the institute.   (5 marks)

8. Section D should include the following text: (5 marks)
